Chatter App are often designed to be responsive, ensuring a seamless user experience across various devices (desktops, tablets, smartphones).

AtmospherePro - A Weather Prediction Platform.

- **Programming Languages :** HTML, CSS & JavaScript.
- **APIs Used :**Geolocation API ,Visual Crossing Weather API.
- **Responsive Design and Cross-Platform Compatibility:**
Weather apps are often designed to be responsive, ensuring a seamless user experience across various devices (desktops, tablets, smartphones).

ROSE - Virtual Voice Assistance.

- **Technologies & Libraries Used :** Python3,Natural Language Processing (NLP), SpeechRecognition,gTTS, web browsing,Web Scraping and APIs.

manishkumartgo@gmail.com

9693069851

github.com/the-manish

WebClipper - A Chrome Extension.

- **Languages Used :** HTML, CSS & JavaScript.
- **APIs Used :** Chrome Tabs API.

SKILLS

- C++
- Python3
- Data Structures
- Algorithms
- DBMS
- SQL
- Problem Solving

ACHIEVEMENTS

- 100days of coding- Diamond Badge(CodeChef)
- Solved over 350 problems on various online judges such as CodeChef,GeeksforGeeks,Leetc ode etc.

CERTIFICATIONS

- Introduction to C++ (Coding Ninjas)
- Data Structures and Algorithms using C++ (Coding Ninjas)
- Git & Github (Coursera)
- Introduction to Web Development (coursera)
- NPTEL The Joy of Computing Using Python(Silver Medal)
- Introduction to AI, DL & NLP(Infosys)

POSITION OF RESPONSIBILITY

- Campus Ambassador : Internshala, PrepBytes.
- Student Volunteer:Kalakunj Foundation (NGO).
- Raahat -LNCT(College Club) Core Member.
